With the increased awareness of concussions in sports, Lubbock Sports Medicine is partnering with **ImPACT** to implement a concussion management system for area athletes. We would like for all area schools to participate and use the **ImPACT** system.

This workshop will introduce you to the system and expand your knowledge regarding comprehensive management of sports-related concussions.

An athlete who sustains a concussion is 4-6 times more likely to sustain a second concussion. The best way to prevent problems with concussions is to manage them effectively when they occur.

**WHAT:** **ImPACT** Concussion Management System Workshop

**WHEN:** March 5<sup>th</sup>, 2010, 9AM -3PM (lunch provided)

**WHERE:** TBD

**WHO SHOULD ATTEND:** All area Sports Medicine Doctors, Athletic Trainers, Athletic Directors and School Administrators
